

Features

- Low-pressure applications
- Protect and maintain the vacuum line
- Input and output air pressure controlled
- Suitable for the pneumatic application under low operational pressure conditions

RS PRO Bush

RS Stock No.: 144-2703, 144-2704,
144-2705, 144-2706

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO Non Return Valve ensure directional control with these high-quality check valve bushes from the RS PRO CVPF series. These male-thread-to-female thread bushes are designed to prevent the backflow of air in the opposite direction. They are commonly used in pneumatic airflow applications and can be trusted to perform perfectly under low operational pressure conditions.

General Specifications

Inlet Connection Type	Threaded
Tube Outlet Connection	14mm
Threaded Inlet Gender	Male
Threaded Inlet Thread Standard	BSPT
