## Datasheet product reliability

Overall data sheet – Individual values depend upon your configuration.

The information in this "Product reliability data sheet" is based on products being used as intended. This includes complying with all specifications in data sheets, catalogues, user documentation and the general operating conditions. The user alone must determine whether a product is suitable for a particular application. Suitability should never be determined based on the configuration-dependent data listed here.

Feature	Value
Well-tried component <sup>1)</sup>	Yes
CE mark (see declaration of conformity)	To EU directive for EMC To EU directive for low-voltage devices

- 1) The product is a well-tried product for a safety-related application according to ISO 13849-1. The relevant basic and well-tried safety principles according ISO 13849-2 for this product are fulfilled. The suitability of the product for a precise application must be verified and confirmed by the user.
